4R NUTRIENT STEWARDSHIP: Our Agronomists Are Ready To Serve Your Farm

Grown with precision.
Grown with care.

**GROWN WITH
PURPOSE**

FARMS PARTICIPATING IN
GROWN WITH PURPOSE™ ARE:

PROFITABLE

Achieve yield goals, maximize returns from crop inputs and grow your business.

EFFICIENT

Apply crop nutrition products when and where they are needed. By soil testing and using the most effective products with the right timing, minimize losses to the environment.

SUSTAINABLE

Promote the efficacy and stewardship of crop inputs and plant genetics, minimize drift, and limit the effects of farm activities on beneficial insects and the environment.

Manage Your Inputs

A comprehensive review of your short- and long-term goals, agronomic strategies and use of crop inputs will provide your local Grow Team member with the insights needed to identify where small changes can have the most impact.

Plan Strategically

Remove the guesswork. Build a crop plan with your local Grow Team member that uses industry-leading solutions to drive efficiency, enhance crop yields and optimize returns on your farm.

Be an AGvocate

Stand up and be proud that the food you produce is nutritious, safe and grown with practices that are mindful of air, water and soil quality.
